Career Technical Programs

The following chart lists CCC Career Technical degrees and certificates according to the Oregon Department of Education Career Learning Areas, www.ode.state.or.us. Oregon's Career Learning Areas (CLA) are six broad groupings of instructional areas, comprised of related careers, which provide context for academic, technical, and career learning. CLA help students gain a deeper and broader view of their career interests and the expectations required for employment and postsecondary training and education. See page 26 for an alphabetical listing of the following Career Technical programs.
