# AAOT/ASOT GENERAL EDUCATION OUTCOMES COURSE OUTLINE MAPPING CHART

## Mark outcomes addressed by the course:

- Mark "C" if this course completely addresses the outcome. Students who successfully complete this course
  are likely to have attained this learning outcome.
- Mark "S" if this course substantially addresses the outcome. More than one course is required for the outcome
  to be completely addressed. Students who successfully complete all of the required courses are likely to have
  attained this learning outcome.
- Mark "P" if this course partially addresses the outcome. Students will have been exposed to the outcome as part of the class, but the class is not a primary means for attaining the outcome and assessment for general education purposes may not be necessary.

## As a result of completing the AAOT/ASOT general education requirements, students will be able to:

#### **WR: Writing Outcomes**

- 1. Read actively, think critically, and write purposefully and capably for academic and, in some cases, professional audiences.
- P 2. Locate, evaluate, and ethically utilize information to communicate effectively.
- **p** 3. Demonstrate appropriate reasoning in response to complex issues.

#### SP: Speech/Oral Communication Outcomes

- 1. Engage in ethical communication processes that accomplish goals.
- 2. Respond to the needs of diverse audiences and contexts.
- 3. Build and manage relationships.

#### **MA: Mathematics Outcomes:**

- 1. Use appropriate mathematics to solve problems.
- 2. Recognize which mathematical concepts are applicable to a scenario, apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results.

#### AL: Arts and Letters Outcomes

- 1. Interpret and engage in the Arts & Letters, making use of the creative process to enrich the quality of life.
- 2. Critically analyze values and ethics within range of human experience and expression to engage more fully in local and global issues.

### SS: Social Science Outcomes

- 1. Apply analytical skills to social phenomena in order to understand human behavior.
- 2. Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.

#### SC: Science or Computer Science Outcomes

- 1. Gather, comprehend, and communicate scientific and technical information in order to explore ideas, models, and solutions and generate further questions.
- 2. Apply scientific and technical modes of inquiry, individually, and collaboratively, to critically examine the influence of scientific and technical knowledge on human society and the environment.

3.	Assess the strengths and weaknesses of scientific studies and critical	ally examine the influence of scientific
ar	nd technical knowledge on human society and the environment.	

## Outcomes Assessment Strategies:

✓ Projects

✓ Writing Assignments

Major Topic Outline:

- 1. Research and definitions of children who are gifted.
- 2. Development needs of children who are gifted.
- 3. Strategies for creating activties, routines and experiences for engaging children who are gifted.
- 4. Assessing children who are gifted.

Does the content of this class relate to job skills in any of the following areas:

Increased energy efficiency
 Produce renewable energy
 Prevent environmental degradation
 Clean up natural environment
 Supports green services
