Lecture (# of hours): 12

Lec/lab (# of hours):

Lab (# of hours):

Total course hours: 12

For each credit, the student will be expected to spend, on average, 3 hours per week in combination of in-class and out-of-class activity.

Course Title: Mitigation Planning for Local and Tribal Communities

Course Description:

This course is designed to familiarize students with the hazard mitigation plan development process. The course will assist students in creating plans that meet the needs of their communities while also fulfilling federal requirements for local plans.

Type of Course: Career Technical Preparatory

Reason for the new course:

Updating coursework for the Emergency Management AAS degree to match current FEMA standards

Is this class challengeable?

Yes

Can this course be repeated for credit in a degree?

No

Is general education certification being sought at this time?

No

Does this course map to any general education outcome(s)?

No

Is this course part of an AAS or related certificate of completion?

Yes

Name of degree(s) and/or certificate(s): AAS Emergency Management

Are there prerequisites to this course?

No

Are there corequisites to this course?

No

Are there any requirements or recommendations for students taken this course?

No

Are there similar courses existing in other programs or disciplines at CCC?

No

Will this class use library resources?

Yes

Have you talked with a librarian regarding that impact?

No

Is there any other potential impact on another department?

No

Does this course belong on the Related Instruction list?

No

GRADING METHOD:

Pass/No Pass Only

Audit: No

When do you plan to offer this course?

✓ **Summer**

✓ **Fall**

✓ **Winter**

✓ **Spring**

Is this course equivalent to another?

If yes, they must have the same description and outcomes.

No

Will this course appear in the college catalog?

No

Will this course appear in the schedule?

No

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. identify and discuss the requirements of the Stafford Act and the federal regulations for mitigation planning,
2. develop a hazard mitigation plan that complies with FEMA guidelines,
3. initiate the plan review process using correct terminology.

This course does not include assessable General Education outcomes.
