Section #1 General Course Information

Department: Skills Development

Submitter

First Name: Lisa

Last Name: Nielson

Phone: 3401

Email: lisan

Course Prefix and Number: ASE - 063

Credits: .5

Contact hours

Lecture (# of hours):

Lec/lab (# of hours): 60

Lab (# of hours):

Total course hours: 60

For each credit, the student will be expected to spend, on average, 3 hours per week in combination of in-class and out-of-class activity.

Course Title: General Science/Wetlands

Course Description:

Presents principles of the plant and animal kingdom in virtual wetlands. Explores organisms, classification systems, and processes, within wetland ecosystems.

Type of Course: Developmental Education

Can this course be repeated for credit in a degree?

No

Are there prerequisites to this course?

No

Are there corequisites to this course?

No

Are there any requirements or recommendations for students taken this course?

Yes

Recommendations: None

Requirements: Instructor consent

Will this class use library resources?

Yes

Have you talked with a librarian regarding that impact?

No

Is there any other potential impact on another department?

No

Does this course belong on the Related Instruction list?

No

GRADING METHOD:

Pass/No Pass Only

Audit: Yes

When do you plan to offer this course?

✓ **Summer**

✓ **Fall**

✓ **Winter**

✓ **Spring**

Will this course appear in the college catalog?

Yes

Will this course appear in the schedule?

No

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. define endangered species scientifically and politically,
2. analyze adaptations and give several examples in the animal kingdom,

3. construct a food web and discuss energy loss,
4. define habitat and identify habitats within an ecosystem,
5. analyze the issues affecting local wetland wildlife populations,
6. identify how wetland play vital role in keeping the planet healthy,
7. research why wetlands are disappearing and the impact of this disappearance.

This course does not include assessable General Education outcomes.

Major Topic Outline:

1. Introduction to wetlands
2. Habitat
3. Food webs
4. Formation and succession of wetlands
5. Behavior and range of organisms

Does the content of this class relate to job skills in any of the following areas:

- | | |
|--------------------------------------|-----------|
| 1. Increased energy efficiency | No |
| 2. Produce renewable energy | No |
| 3. Prevent environmental degradation | No |
| 4. Clean up natural environment | No |
| 5. Supports green services | No |
