1. Welcome & Introductions

2. Approval of Minutes

- a. Approval of the December 4, 2020 minutes

Motion to approve, approved

3. Consent Agenda

- a. Course Number Changes
b. Course Title Change
c. Reviewed Outlines for Approval

Motion to approve, approved

4. Course and Program Approvals

AUTOMOTIVE

The following changes are all related to a complete program redesign

Goals:

1. address faculty and student work load
 - a. instructors were teaching too many disciplines at one time
 - b. allow a student to take one automotive class at a time to help them better focus and comprehend
2. employment and gaining industry partnerships
 - a. new program has a built in section that allows time for students to be employed while being a full time student. This is our internship program. This course will better align our students, program, and industry together
3. create more opportunity and flexibility for a new student to enter our program
 - a. A new student has the potential to not only enter our program at any term, they could enter a course that starts midterm as well
4. how could we better partner and serve the industry we teach
Jay Leuck and Rick Lockwood presented

a. **Course Hours, Instructional Method, Credits Change**

- i. AM-129, 130, 131, 133, 223, 224, 235, 245
- ii. All courses changing to 100 LE/LA, 5 Credits
- iii. College committed to hiring a part-time faculty member. The program revision will create more opportunities for employment of the part-time faculty pool.

Motion to approve, approved

b. **New Courses**

- i. AM-101, 142, 201, 225, 229, 242
- ii. AM-101
 1. Prepare students who are new to the college and the auto service program for success. Taken in first term of the program.
 2. AM-142
 - a. First half of Engine Performance
 3. AM-201
 - a. Better prepare students for successful transition into the workforce
 4. AM-225
 - a. Needed a dedicated course for the new technology in the area of safety systems that continue to be added to vehicles
 5. AM-229
 - a. Continuation of AM-129
 6. AM-242

- a. Second half of Engine Performance. Continuation of AM-142

Motion to approve, approved

c. **Program Amendments**

- i. Under Car Technician – Automatic Transmission CPCC
 - 1. Total credits change from 40 to 33
- ii. Under Car Technician – Manual Transmission CPCC
 - 1. Total credits change from 40 to 28
 - 2. 28 credits aren't enough for students to earn financial aid. Programs have to be at least 33 credits.
- iii. Automotive Service Technology AAS
 - 1. Total credits change from 94-95 to 90-91

Motion to approve, approved

d. **Program Suspensions**

- i. Under Hood Technician CPCC
 - 1. Won't be possible to offer with the program redesign

Motion to approve, approved

e. **Course Hours, Instructional Method, Credits Change**

- i. PIE-091
 - 1. Andrea Vergun presented
 - 2. The Saudi Arabian Cultural Mission (SACM) program has been discontinued, so this arrangement is no longer necessary or desirable. Revised PIE-091A to be more generic, and renamed it as PIE-091

Motion to approve, approved

f. **Course Inactivations**

- i. PIE-091B, 091C, 091D, 091H, 094
 - 1. Andrea Vergun presented
 - 2. 091s: The SACM program has been discontinued, so this arrangement is no longer necessary or desirable.
 - 3. 094: Our justification is that there is rarely demand for the course, and the PIE no longer has sufficient numbers enrollment to support running the course, even if a few students requested it. (Unlike other courses, it is not cross listed with an ESL courses; no resident students would need to take this course.)

Motion to approve, approved

- ii. APR-115UW, 116UM, 116UW, 117UM, 118UM
 - 1. Shelly Tracy presented
 - 2. PGE is no longer using these courses.
 - 3. They are being replaced with electives in the programs

Motion to approve, approved

- iii. ART-116, DMC-194, DMC-195
 - 1. Nora Brodnicki presented
 - 2. ART-116: stopped offered a few years ago after "color" was added to ART-115. This aligns with PSU's offerings.
 - 3. DMC-194 and 195 are equated to ENG-194 and ENG-195, which will remain active. It is better for Advisors and students to only have one set of courses.

Motion to approve, approved

g. **New Courses**

- i. FRP-255, FST-205, 207, 240, 245
 - 1. Jeff Ennenga presented
 - 2. Industry request
 - 3. FRP-255 will be reviewed for Related Instruction at a later date
 - a. Why isn't this a course that Health/PE offers?
 - b. Fire physical education requirements are very specific and this course prepares students for fire-specific applications
 - 4. FST courses will eventually be part of a certificate

Motion to approve, approved

h. **Program Amendments**

- i. **Group 1: AS, Computer Science, PSU**
Rich Albers presented
 - 1. Moved the BI/CH/PH requirements from first year to second year to make the first year more manageable
 - 2. added CS-160 to the first term to give students some useful intro material.
 - 3. Total credits change from 100-106 to 100-102

Motion to approve, approved

- ii. **Group 2: Apprenticeship**
Shelly Tracy presented
 1. Construction Trades, General Apprenticeship AAS
 - a. Update Computation Related Instruction to say “except MTH-080”
 2. Electrician Apprenticeship Technologies AAS
 - a. Total credits change from 90-101 to 90-102
 - b. Update Computation Related Instruction from 3-4 to 4-5 credits and to include note of “except MTH-080”
 - c. Removed courses that are planned for inactivation and adjusted elective credits accordingly.
 3. Industrial Mechanics and Maintenance Technology Apprenticeship AAS
 - a. Total credits change from 90-96 to 90-94.
 - b. Use MTH-080 as Computation Related Instruction, adjust elective credits.

Motion to approve, approved

- iii. **Group 3: Accounting**
Joan San-Claire presented
 1. Accounting Assistant AAS
 - a. Added BA-112. Added EC-201 or EC-202 to elective options
 2. Accounting Clerk CC
 - a. Only catalog note changes. Added EC-201 or EC-202 to elective options

Motion to approve, approved

- iv. **Group 4: Horticulture**
April Chastain presented
Through Assessment and Guided Pathways work, moved common courses across programs to earlier terms
 1. Horticulture AAS
 - a. Added in Focus Area courses, FYE-101
 - b. Total Credits change from 94-98 to 95-101

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Course Title: Decision Making with Accounting Information

Course Description:

Building on the introduction to financial accounting, this course focuses on managerial accounting, which is the language of business for internal management in manufacturing and service organizations. Managerial accounting drives effective operational decisions by analyzing the components and flow of costs for products and services, as well as for jobs, activities, and segments. Budgets convey an organization's plan of operations, while performance measurement compares variances with actual results. This course is recommended for those interested in business in general, as well as for those planning a career in accounting.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?

2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. list propagation materials and equipment including; media, containers, and irrigation systems;
2. identify sexual propagation practices including basic genetics and breeding concepts, seed production, treatments and horticultural seeding practices;
3. identify asexual propagation practices including cuttings, layering, division, grafting and micropagation;
4. analyze practices between propagation and potting as well as construct propagation records;
5. demonstrate the successful technique for propagating cuttings;
6. make sound decisions concerning approaches to propagation, based on knowledge, research and experimentation in the lab.

This course does not include assessable General Education outcomes.

Major Topic Outline:

1. Aspects of Plant Propagation.
 - a. Plant physiological processes.
 - b. Plant anatomy.
 - c. Plant fertility.
 - d. Diseases and insect control.
2. Propagation Materials and Equipment.
 - a. Creating the propagation environment.
 - b. Evaluation of propagation media.
 - c. Containers, irrigation practices.
 - d. Sanitation.
 - e. Equipment.
 - f. Diseases and insect control.
3. Sexual Propagation Practices.
 - a. Basic genetics and breeding concepts.
 - b. Seed production and collection.
 - c. Seed dormancy treatments.
 - d. Germination environments.
 - e. Seedling nursery practices.
4. Asexual Propagation Practices.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. identify simple and easy styles of floral design;
2. select and prepare proper container;
3. determine suitable types of flowers for specific arrangement styles and containers;
4. explain factors that impact cut flower/foilage longevity (vase life);
5. cite cultural and handling requirements for 40 unusual types of plants including woody shrubs, herbaceous perennials, annuals and biennials, native plants, and more;
6. demonstrate proper maintenance of fresh flower arrangements to allow for maximum longevity.

This course does not include assessable General Education outcomes.

Major Topic Outline:

1. Flower arrangement.
 - a. Styles of arrangements.
 - b. Container selection including traditional and new ideas.
 - c. Form of the arrangement to suit style.
 - d. Suitable species of flowers for specific styles.
 - e. New ideas for the designer/arranger.
 - f. Study of cut flower longevity.
2. Cultural requirements of 40 different annual and herbaceous.
 - a. Perennial plants.
 - b. Botanic name - common name.
 - c. Exposure for maximum quality plant growth.
 - d. Soil requirements for each species.
 - e. Environmental considerations for plant culture.
 - f. Harvest timing and conditioning for quality stems for arrangements.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. demonstrate the successful technique for propagating semi-hardwood cuttings;
2. describe the environmental requirements for successful cutting propagation;
3. explain the factors important to successful seed collection, storage and breaking of dormancy;
4. explain the sources of variation within both sexually and clonally propagated plants;
5. describe the process of layering, and how it's used in commercial propagation;
6. make sound decisions concerning approaches to propagation, based on knowledge, research and experimentation;
7. maintain accurate records, and conduct research using the internet and other publications.

This course does not include assessable General Education outcomes.

Major Topic Outline:

1. Plant physiology.
 - a. Plant parts.
 - b. Plant physiological processes.
2. Plant and environment—relationships for survival.
 - a. Sanitation.
 - b. Fertility.
 - c. Diseases and insect control.
 - d. Plant quality.
3. Propagation structures and materials.
 - a. Structures for plant propagation.
 - b. Equipment for propagation.
 - c. Propagation media.
 - d. Hormones and "wounding."
4. Seed propagation.
 - a. Seed harvest/selection.
 - b. Seed viability.
 - c. Seed storage.
 - d. Seed stratification.
 - e. Seed scarification.
5. Asexual plant propagation by cuttings, budding, grafting, layering, specialized structures and tissue culture.
 - a. Advantages and disadvantages of each method.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

- 1.define the difference between an abiotic-caused plant disorder and a biotic-caused plant disorder;
- 2.identify environmental factors that affect biotic and abiotic-caused tree disorders;
- 3.identify by sight common disorders of trees;
- 4.use monitoring tools to assist in tree problem diagnosis;
- 5.list appropriate steps to improve tree health when compromised by specific abiotic or biotic-induced disorders;
- 6.communicate in writing and orally the cause of ill health for selected trees;
- 7.pass the ODA Ornamental & Turf Insecticide/Fungicide exam.

This course does not include assessable General Education outcomes.

Major Topic Outline:

- 1.Abiotic vs. Biotic Disorders
 - a.Compare definitions used for defining abiotic–caused plant disorders from various resources;
 - b.List key differences and distinctions between an abiotic-caused plant disorder and a biotic-caused plant disorder.
 - c.List how abiotic factors may influence biotic factors.
- 2.Plant Symptoms Resulting from Abiotic Factors
 - a.Temperature: heat, cold
 - b.Soil problems: water, aeration, nutrient excess or deficiency;
 - c.Sunburn and sunscald
 - d.Light intensity
 - e.Wind injury
 - f.Hail/ice
 - g.Lightning
 - h.Human induced: girdling roots, pesticide damage, graft incompatibility, mechanical injury, inappropriate planting technique, gas injury, air pollution, root removal, soil compaction
- 3.Biotic Signs & Symptoms of Disorders
 - a.Biotic – fungus, bacteria, virus, insect, mammal, mite, rodent, deer
 - b.Diagnostic process used to determine cause of decline
- 4.Customer Communication
 - a.Design communication techniques to use for explaining specific abiotic and biotic disorders to clients
 - b.Review written forms used by various private and public entities
 - c.Practice delivering information regarding tree problems in both writing and orally for selected trees and other landscape plants, according to standards used in industry Plant Health Care forms, and public sector tree evaluation documents
- 5.Monitoring Tools to Aid in Diagnosis
 - a.beating trays, pheromone traps, weather stations, soil probes, degree-days, dissecting scope, hand lens

- b.onsite inspection, soil samples, drones, area wide weather stations, internet resources
- c.software programs
- 6. Identifying Steps to Improve Tree Health
 - a. Create a working list of how to protect plants from abiotic plant disorders
 - b. Prepare a working list of how to treat plants suffering from abiotic disorders
 - c. 50 most common trees grown in landscapes locally and 3-5 common biotic disorders for each
 - d. 10 most common abiotic disorders of trees grown in local landscapes – drought, water-logged roots, compaction, lawn mower blight, poor planting technique, wrong location, temperature damage, root removal due to human activities
- 7. Take the Oregon Department of Agriculture Ornamental & Turf Insecticide/Fungicide exam

1. perform and evaluate timely plant health care practices, including tree pruning and removal;
2. perform ground operations required for tree pruning and removal;
3. perform appropriate site management practices;
4. demonstrate competency with use of hydraulic sprayer;
5. demonstrate competency with use of chipper apparatus;
6. explain to a potential customer the value of preventative vs. reactive plant health care practices.

This course does not include assessable General Education outcomes.

Major Topic Outline:

1. Plant Health Care (IPM) Practices
 - a. Structural training of young trees
 - b. Safe tree removal in urban settings
 - c. Maintenance pruning of trees and shrubs to improve health
 - d. Tree and shrub fertilization and soil amendment techniques
 - e. Tree injection techniques
 - f. Tree and shrub spraying techniques for pest problems
 - g. Soil compaction modification approaches
 - h. Tree planting technique – bare root, ball and burlap, container
 - i. Tree protection practices at construction sites
2. Site Assessment Practices
 - a. Plant Health Care site inspections, treatments and reports
 - b. Electrical hazard awareness when working with trees
 - c. Hazard tree identification
 - d. Evaluation of key plants in landscape
 - e. Water audit interpretation
3. Perform Worksite Management Activities
 - a. Personal protective equipment
 - b. Hazard awareness
 - c. Staging the site
 - d. Communication between ground & aerial workers
 - e. Communication with public near work area
 - f. Protection of non-target items
 - g. Traffic & noise considerations

4. Perform Safe Equipment Operation

a. Chainsaw

b. Chipper

c. Truck & trailer

5. Practice Customer Interaction

a. Convey understandable Plant Health Care information to customer

b. Market strategies for Plant Health Care practices

Mark outcomes addressed by the course:

- Mark "C" if this course completely addresses the outcome. Students who successfully complete this course are likely to have attained this learning outcome.
- Mark "S" if this course substantially addresses the outcome. More than one course is required for the outcome to be completely addressed. Students who successfully complete all of the required courses are likely to have attained this learning outcome.
- Mark "P" if this course partially addresses the outcome. Students will have been exposed to the outcome as part of the class, but the class is not a primary means for attaining the outcome and assessment for general education purposes may not be necessary.

As a result of completing the AAOT/ASOT general education requirements, students will be able to:

WR: Writing Outcomes

- P** 1. Read actively, think critically, and write purposefully and capably for academic and, in some cases, professional audiences.
- P** 2. Locate, evaluate, and ethically utilize information to communicate effectively.
- P** 3. Demonstrate appropriate reasoning in response to complex issues.

SP: Speech/Oral Communication Outcomes

- C** 1. Engage in ethical communication processes that accomplish goals.
- C** 2. Respond to the needs of diverse audiences and contexts.
- C** 3. Build and manage relationships.

MA: Mathematics Outcomes:

- C** 1. Use appropriate mathematics to solve problems.
- C** 2. Recognize which mathematical concepts are applicable to a scenario, apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results.

AL: Arts and Letters Outcomes

1. Interpret and engage in the Arts & Letters, making use of the creative process to enrich the quality of life.
2. Critically analyze values and ethics within range of human experience and expression to engage more fully in local and global issues.

SS: Social Science Outcomes

1. Apply analytical skills to social phenomena in order to understand human behavior.
- P** 2. Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.

SC: Science or Computer Science Outcomes

- P** 1. Gather, comprehend, and communicate scientific and technical information in order to explore ideas, models, and solutions and generate further questions.
2. Apply scientific and technical modes of inquiry, individually, and collaboratively, to critically examine the influence of scientific and technical knowledge on human society and the environment.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. use graphical, numerical, and analytical techniques to construct a function from its derivative; (MA1) (MA2)
 2. use Riemann sums to approximate the area under a curve both numerically and graphically; (MA1)
 3. apply appropriate integration techniques to find the antiderivatives of a function; (MA2)
 4. use the Evaluation Theorem and the Fundamental Theorem of Calculus to evaluate integrals; (MA1)
 5. sketch two- and three-dimensional regions and use integral calculus to model and determine the area or volume of such regions; (MA1) (MA2)
 6. model and evaluate the average value and arc length of a function over an interval; (MA1) (MA2)
 7. use integral calculus to model and solve applications in physics, engineering, health sciences, business, or probability and interpret the results in the context of the application. (MA1) (MA2)

As a result of completing the AAOT/ASOT general education requirements, students will be able to:**WR: Writing Outcomes**

1. Read actively, think critically, and write purposefully and capably for academic and, in some cases, professional audiences.
2. Locate, evaluate, and ethically utilize information to communicate effectively.
3. Demonstrate appropriate reasoning in response to complex issues.

SP: Speech/Oral Communication Outcomes

1. Engage in ethical communication processes that accomplish goals.
2. Respond to the needs of diverse audiences and contexts.
3. Build and manage relationships.

MA: Mathematics Outcomes:

- C** 1. Use appropriate mathematics to solve problems.
- C** 2. Recognize which mathematical concepts are applicable to a scenario, apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results.

AL: Arts and Letters Outcomes

1. Interpret and engage in the Arts & Letters, making use of the creative process to enrich the quality of life.
2. Critically analyze values and ethics within range of human experience and expression to engage more fully in local and global issues.

SS: Social Science Outcomes

1. Apply analytical skills to social phenomena in order to understand human behavior.
2. Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.

SC: Science or Computer Science Outcomes

1. Gather, comprehend, and communicate scientific and technical information in order to explore ideas, models, and solutions and generate further questions.
2. Apply scientific and technical modes of inquiry, individually, and collaboratively, to critically examine the influence of scientific and technical knowledge on human society and the environment.
3. Assess the strengths and weaknesses of scientific studies and critically examine the influence of scientific and technical knowledge on human society and the environment.

Outcomes Assessment Strategies:**✓ General Examination****✓ Other Assessment Tools: Problem Sets, Quizzes****Major Topic Outline:**

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Course Description:

Continues the improvement of intermediate-level Spanish conversation through the discussion of readings and situations related to selected special topics (which vary from term to term). Spanish culture related to the topics will be included. Simulated role plays are also used to practice conversational strategies for use in real-life situations. The emphasis in this course is in helping students to gain confidence in their communication skills.

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Course Title: Statistics I

Course Description:

An introduction to Descriptive and Inferential Statistics explores how data summaries are produced so that we can better understand the data-based information that we encounter in our lives and careers. In this exploration, we will touch on the topics of graphical depictions and verbal descriptions of datasets, discrete and continuous probability models including binomial and normal distributions, sampling distributions, introduction to inferential statistics, and confidence intervals.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a

new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Course Title: Nursing in Acute Care II & End of Life

Course Description:

This course builds on Nursing in Acute Care I, focusing on more complex and/or unstable patient care conditions, some of which may result in death. These patient care conditions require strong noticing and rapid decision making skills. Evidence base is used to support appropriate focused assessments, and effective, efficient nursing interventions. Life span and developmental factors, cultural variables, and legal aspects of care frame the ethical decision-making employed in patient choices for treatment or palliative care for disorders with an acute trajectory. Case scenarios incorporate prioritizing care needs, delegation and supervision, and family and patient teaching for either discharge planning or end-of-life care. Exemplars include acute conditions affecting multiple body systems. Includes classroom and clinical learning experiences.

Student Learning Outcomes:

Upon successful completion of this course, students should be able to:

1. conduct evidence-based assessment, using age, and developmentally and culturally appropriate communication skills by:
 - a. monitoring a variety of data and accurately interpreting obvious deviations from expected patterns in increasing complex acute conditions (e.g. co-morbidities, complications, high-risk pregnancies, acute psychosis, life threatening situations, diverse health beliefs);
 - b. recognizing potential problems and rapidly changing physiologic and behavioral situations,
 - c. recognizing pathophysiological changes and symptoms experienced by the patient which are associated with the dying process,
 - d. regularly monitoring patient's level of comfort and ability to manage symptoms and symptom distress;
 - e. assessing family's response to patient's illness,
 - f. recognizing impact of individual development, as well as family development and dynamics on physiologic and behavioral status;
2. develop and use evidence-based, individualized, developmentally appropriate interventions that are dynamic and based on changing needs of patient and family;
3. collaborate with health care team members to provide comfort and symptom management,
4. develop discharge plans in collaboration with patient, family, health care team members, and service providing agencies;
5. reflect on experiences in caring for patients with acute conditions.

This course does not include assessable General Education outcomes.

Major Topic Outline:

1. Concepts of Complex Acute Care Nursing.
 - a. Clinical Judgment Model.
 - b. Care coordination.
 - c. communication.
 - d. symptom management.

Course Title: Intro to Education Practicum & Seminar

Course Description:

This course introduces students to critical topics associated with the education profession. Each topic will be considered on an introductory level with an understanding that future classes will expand student comprehension and knowledge to a mastery level. Students are also required to participate in a 6 hour per week practicum to provide the opportunity to experience directly the various educational issues discussed in class. Required: Student Petition.

Type of Course: Lower Division Collegiate

Reason for the new course:

This course is designed to provide an initial practical experience in a classroom setting as well as an introduction to the course of study for professional educators. Ideally students will discern if a career in education is the right fit for them prior to pursuing the required coursework for this career pathway.

Section #2 Course Transferability

Concern over students taking many courses that do not have a high transfer value has led to increasing attention to the transferability of LDC courses. The state currently requires us to certify that at least one OUS school will accept a

new LDC course in transfer. Faculty should communicate with colleagues at one or more OUS schools to ascertain how the course will transfer by answering these questions.

1. Is there an equivalent lower division course at the University?
2. Will a department accept the course for its major or minor requirements?
3. Will the course be accepted as part of the University's distribution requirements?

If a course transfers as an elective only, it may still be accepted or approved as an LDC course, depending on the nature of the course, though it will likely not be eligible for Gen Ed status.

Which OUS schools will the course transfer to? (Check all that apply)

- EOU (Eastern Oregon University)**
- OSU (Oregon State University)**

- SOU (Southern Oregon University)**
- UO (University of Oregon)**
