

Great American Smoke-Out Comment Card Responses

“It is our intent as a college to go Tobacco-Free. What are the potential issues?”

I think designated smoking areas are good but banning it completely seems rather extreme.

-Student

Save the shacks, screw the whales!

-Student

Many students at Clackamas are smokers. There would be a big backlash from this.

-Student

A majority of the college smokes. They would be angry.

-Student

Keep it a smoking campus.

-Student

You should have a choice.

-student

I hate the smell of cigs. I say ban them.

-Student

It kills. It gave my mom lung cancer and she passed away when I was seven.

-Student

People's right to smoke. I feel I have the right to breathe fresh air!

-Student

Who cares.

-Student

I oppose. (going tobacco-free)

-Student

Stress causes smoking.

-Student

I'm all for it. I'm a smoker, and I wouldn't mind.

-Student

My belief, as a non-smoker, is that if we ban smoking, we are not only taking away people's rights, smokers will do it anyway.

-Student

I have no problem with it; I just quit chewing!

-Student

Ruining our health...second hand smoke!

-Student

Keep the huts!

-Student

Keep the huts.

-Student

Where is the smokers rights? No on banning smoking, we spent money on smoking areas, now it would be a waste of school money and jobs students do here.

-Student

People are going to rebel against.

-Student

People are going to do it anyways.

-Student

Smokers might be mad but they can smoke when it's only their lungs that are being affected.

-Student

It sounds like a good idea. I am not a smoker.

-Student

I your outdoors you should at least be able to have designated smoking areas still.

-Student

Don't it's peoples choice. There's no need to restrict anymore freedoms.

-Student

Less pollution! Less cancer, more fresh air 😊

-Student

People not coming to school. People being cranky.

-Student

I can see issues with people getting angry about this...but as a non-smoker...I approve. And thank you.

-Student

Why do it? Because PCC does? Chump.

-Student

It will be good for the environment. I support!

-Student

People are going to do it either way your just gunna make a mess for yourself to deal with.

-Student

Don't do it. It's fine the way it is.

-Student

No issues, just do it.

-Student

Smokers like myself and many others will be aggravated.

-Student

The smell of smoke goes throughout the school and smells gross.

-Student

There are no issues.

-Student

I really like the idea of banning smoking. Smoking is hazardous to health, makes school less pleasant, and causes a lot of litter.

-Student

I like the idea of going smoke free because it smells and causes lots of litter in the form of cigarette butts.

-Student

Smell sucks and the taste of second hand smoke.

-Student

No, there will be rebellions, and possibly other problems.

-Student

The smokers will rise up in an angry mob and will demand smoking back, or just do it anyway.

-Student

Smoking in cars, butts on floor, angry students/staff.

-Staff

Leave it as is.

-Student

Awesome idea!

-Student

I believe that you are infringing on peoples right by removing the smoke pit. If you don't like the smell, go around.

-Student

Clean air, healthy people! Health is wealth and leads to better learning!

-Staff

I would love CCC to be smoke free. I think it would help people quit. It would create a more family friendly environment.

-Student

People get offended. Second hand smoke.

-Student

I don't smoke, I don't like smoke. I'm cool with this idea.

-Student

That we should keep the smoke stations on campus.

-Student

Healthier students?

-Student

Your not surrounded by people that smile.

-Student

I don't smoke but it does not bother me when they smoke in their area. I don't think I would like a bunch of stressed out smokers, because they can't smoke.

-Student

No second hand smoke. Some will think invasion of privacy.

-Student

College is hard enough! Please don't handicap those that are addicted to cigarettes. Thank you! ☺ Non-smoker against this.

-Student

I think it's a great idea whose time has come- enforcement may be an issue if staff doesn't help.

-Staff

I like the idea.

-Student

Anything that makes it harder for my daughter to smoke works for me!

-Student

Smoke free – YES!

-Student

It would be very nice to have a smoke free school because when I pass a person that smoke I feel like its going in to me too!

-Student

GASO Poster Responses

How do you feel about CCC potentially going Tobacco-Free?

Do it!

It kills

Your wasting our time

Smoking is BAAAD

Unnatractive!

Yes!

Smoking Kills!

Smoking kills everyone yes you to!!

Death rate is over dramatized

Boo-ya!

No smoking on campus! We should get rid of it soon! ☺

It kills everyone!

Smoking no bueno!!

Smoking es no bueno

It's too soon!

Absolutely!

Smoking is bad!

My grandmother died in 2003 from Lung cancer. My mother is still smoking- even with COPD! As a non-smoker we can stand it. But it's still gross!
