Prevention and Response to Crime

To reduce the possibility that any student or employee may be exposed to potential hazards, the following steps have been developed:

1. All keys to classrooms, offices, laboratories, files, cabinets, etc. are issued by Public Safety. Staff members must sign for keys when they are issued and check them in at the close of the College year or whenever they are no longer needed. Keys to campus facilities are not to be given to students without the express permission of the [Vice President of Student Development and Services];
2. It is the responsibility of each staff member to see that windows are closed and latched, doors are locked and lights are out when not in use. These precautions are particularly important when leaving the work area for the day;
3. To prevent outside doors to buildings being left unlocked late at night or on weekends, all staff are to carefully observe the following guidelines:
 - a. A building unlocked for staff must be immediately relocked after entering. This will prevent the possibility of an unauthorized entry;
 - b. On leaving the building, staff are directed to not only lock the door, but also to try it afterwards to see that the safety latch is caught.
4. Staff members are encouraged to help students set up a “buddy system” when walking to and from classes. Instructors should include themselves in such planning;
5. All staff members and students are encouraged to lock vehicle doors, even when leaving vehicles only for a short time;
6. It is the responsibility of the safety committee to routinely inspect College facilities and grounds and make recommendations on safety hazards that may impact students, staff and visitors;
7. It is the responsibility of all staff members and students to report all suspicious activity and crimes occurring in College buildings and classrooms and on College grounds to the Public Safety Department or an administrator as promptly as possible;
8. Staff and students are encouraged to report nonoperating lighting to College staff and nonoperating street lights to city offices;

9. The College is a drug-free educational institution and workplace. Enforcement of the College drug and alcohol policy is part of the College crime prevention strategy. It is a violation of policy for students or staff to possess, consume, be under the influence of or furnish illicit drugs on College controlled property or at College or student organization functions. A student violation of this prohibition may result in disciplinary probation, suspension or expulsion.

Record Keeping

The College shall make, keep and maintain a daily log recording all crimes reported to the Public Safety Department. The log will include:

1. The nature, date, time and general location of each crime; and
2. The disposition of the complaint, if known.

All entries shall, except where disclosure of such information is prohibited by law or such disclosure would jeopardize the confidentiality of the victim, be open to public inspection within two business days of the initial report being made to the Public Safety Department. If new information about an entry into a log becomes available, the new information shall be recorded in the log not later than two business days after the information becomes available to the department. If there is clear and convincing evidence that the release of such information would jeopardize an ongoing criminal investigation or the safety of an individual, cause a suspect to flee or evade detection, or result in the destruction of evidence, the information may be withheld until that damage is no longer likely to occur from the release of such information.

The College shall on an annual basis submit a copy of the required statistics to the Secretary of Education.
