

Student Planning in Self-Service

New Terminology

Three new terms are replacing the process formerly known as “Instructor Consent.” These terms are below.

Faculty Consent

Faculty Consent is required for a student that would like to enroll in a course after it has started.

Requisite Waiver

A **Requisite Waiver** is required for a student that would like to enroll in a course without officially meeting a course prerequisite.

Student Petition

A **Student Petition** is required for a student that would like to enroll in a course with a special requirement. For instance, “A camera is required for this class.”
