# Event Mission

The Clackamas Regional Skills Competition is a bridge between high school and college which provides students an opportunity to demonstrate skills and knowledge in academic competitions and events and to also engage in college exposure opportunities.

The aim of the event is to promote a college-going culture, expose students to a college campus, and increase the likelihood of attendance.

# Event Outcomes

## Short-term/day-of

- i. Every school within C-TEC is represented.
- ii. >1,000 students in attendance.
- iii. Every EFA is represented in event offerings.
- iv. Students with disabilities are able to access and participate meaningfully in the event.
- v. There is a variety of academic and college exposure activities for students to participate meaningfully in the event.
- vi. High school students have opportunities to meet and learn from college students.
- vii. Transportation options are available and clear for students and high schools.

# Event Outcomes

## Long-term

- i. 40% of winners use tuition waivers.
- ii. Career Fair vendors and CCC business partners are better connected with competitions.
- iii. X% of Clackamas County students participate in the event.
- iv. The Steering Committee connects participation and winner data to national/state/local student success data.
