

Instructional Standards & Procedures (ISP) Committee Annual Report

Education That Works

ISP Committee Mission

The Instructional Standards and Procedures Committee (ISP) is the faculty-majority group responsible for the framework that supports the development and delivery of instruction at Clackamas Community College. Through shared collegial expertise and research, colleagues and administrators create and maintain the **standards** (the guiding principles and rules for what we do) and **procedures** (the processes we use to reach those principles) that apply to instructional matters across the college, including enrollment, coursework, and the completion of a degree or certificate. These standards and procedures provide information and processes for faculty, staff, and students.

The current collection of standards and procedures can be found online at <https://www.clackamas.edu/about-us/accreditation-policies/policies-and-procedures>.
